CLAIM

The ornamental design for an in-store wall, as shown and described.

DESCRIPTION

FIG. 1 is a front and right side perspective view of an in-store wall showing our new design, shown broken away to disclose indeterminate length, it being understood that the elements of the design repeat uniformly along its length, and that the front and left side perspective view is a mirror image;

FIG. 2 is a front elevational view of FIG. 1; and,

FIG. 3 is a front elevational view of a second embodiment of the design of FIG. 1, the only difference being the placement of the shelves, it being understood that the design elements shown repeat uniformly along its length.
