We claim the ornamental design for a leash for an electronic device, as shown and described.

DESCRIPTION

FIG. 1 is an elevation view of the left side of the leash for an electronic device;
FIG. 2 is an elevation view of the front of the leash for an electronic device;
FIG. 3 is a plan view of the bottom of the leash for an electronic device;
FIG. 4 is a plan view of the top of the leash for an electronic device;
FIG. 5 is an elevation view of the right side of the leash for an electronic device;
FIG. 6 is an elevation view of the rear of the leash for an electronic device;
FIG. 7 is an isometric view, from the rear right, of the leash for an electronic device; and,
FIG. 8 is an isometric view, from the front left, of the leash for an electronic device.

The broken line showing of environment in the drawings is included for the purpose of illustrating only and forms no part of the claimed design.
