UNITED STATES PATENT OFFICE.

ERNST H. HUENEFELD, OF CINCINNATI, OHIO.

DESIGN FOR A HEATING-STOVE.

SPECIFICATION forming part of Design No. 28,362, dated March 8, 1898.

Application filed July 29, 1897. Serial No. 646,431. Term of patent 14 years.

To all whom it may concern:

Be it known that I, ERNST H. HUENEFELD, a citizen of the United States, residing at Cincinnati, in the county of Hamilton and State of Ohio, have invented and produced a new and original Design for Heating - Stoves, of which the following is a specification, reference being had to the accompanying drawings, forming part thereof.

Figure 1 is a view in perspective of a heating-stove embodying my design; and Fig. 2 is a bottom plan view thereof, the legs being omitted.

The leading and material feature of my design consists in the base of the stove, wherein the inner cylindrical portion B is centrally

disposed within the angular body A, supported on legs F, the angular body being open at its lower end, and also in the ornamental vase resting on a truncated-cone-shaped base D, 20 surmounting the top of the stove. The angular body is ornamented on its front face by a plate E.

Having fully described my invention, what I claim as new, and desire to secure by Letters 25 Patent, is—

The design for stoves as herein shown and described.

ERNST H. HUENEFELD.
