FIG. 1 is a front elevation view of a first embodiment of a wristwatch showing my new design, having the straps of the watch band in an extended position;  
FIG. 2 is a rear elevation view thereof;  
FIG. 3 is a bottom view in an alternate configuration, where the watch band strap is rotated perpendicular to the watch face;  
FIG. 4 is a top plan view thereof;  
FIG. 5 is a partial left side view in a further alternate configuration, where the watch band straps are in a retracted and arched position;  
FIG. 6 is a partial right side view thereof;  
FIG. 7 is a front elevation view of a second embodiment of a wristwatch showing my new design, and having the same views depicted in FIGS. 2-6; and,  
FIG. 8 is a front elevation view of a third embodiment of a wristwatch showing my new design, and having the same views depicted in FIGS. 2-6.

The broken lines of even length shown in the drawings illustrate portions of the wristwatch that form no part of the claimed design.  
The broken lines of uneven length in FIGS. 1-4 indicate the bisection points in the wristwatch band straps corresponding to the broken lines of uneven length which indicate the boundaries of the wristwatch band strap portions depicted in FIGS. 5 and 6.
