(54) Title: ORDER COMMITMENT METHOD AND SYSTEM

TO FIG. 5 CONT.

(57) Abstract: An order commitment method and system are described. The method includes the steps of identifying services and data capable of supporting an order commitment, and mapping the services to enable synchronized on-demand queries. The mapping step includes determining relationships among the services and the data and maintaining the relationships, wherein links are established to create fulfillment information. The method also includes using the fulfillment information to generate the order commitment.
