

# SUPPLEMENTARY EUROPEAN SEARCH REPORT

Application number:  
EP 21 85 07 33

## Classification of the application (IPC):

G06F 8/36, G06N 5/022, H04L 67/10, H04L 67/12, G06F 8/60

## Technical fields searched (IPC):

G06F, G06N, H04L

| DOCUMENTS CONSIDERED TO BE RELEVANT |                                                                                                                                                                                                                                                                                                                                              |                   |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| Category                            | Citation of document with indication, where appropriate, of relevant passages                                                                                                                                                                                                                                                                | Relevant to claim |
| X                                   | <b>PULLMANN JAROSLAV ET AL:</b> "Ontology-based information modelling in the industrial data space" <i>2017 22ND IEEE INTERNATIONAL CONFERENCE ON EMERGING TECHNOLOGIES AND FACTORY AUTOMATION (ETFA), IEEE</i> , 12 September 2017 (2017-09-12), DOI: 10.1109/ETFA.2017.8247688, pages 1-8, XP033293022<br>* pages 1-5 *<br>* figures 1-3 * | 1-15              |
| A                                   | <b>MAHESWARAN MUTHUCUMARU ET AL:</b> "Design of a context aware object model for smart spaces, things, and people" <i>2015 IEEE INTERNATIONAL CONFERENCE ON COMMUNICATIONS (ICC), IEEE</i> , 08 June 2015 (2015-06-08), DOI: 10.1109/ICC.2015.7248405, pages 710-715, XP033198524<br>* the whole document *                                  | 1-15              |

The supplementary search report has been based on the last set of claims valid and available at the start of the search.
