[57] **CLAIM**  
The ornamental design for a multimedia stacker rack, as shown and described.

**DESCRIPTION**

FIG. 1 is a front plan view of a single unit of the smaller version of the multimedia stacker rack;  
 FIG. 2 is a side plan view of a single unit of the smaller version of the multimedia stacker rack as seen from the right-hand side, the view from the left-hand side being an identical mirror image;  
 FIG. 3 is a top plan view of a single unit of the smaller version of the multimedia stacker rack, the top plan view of the larger version and an assemblage being identical;  
 FIG. 4 is a bottom plan view of a single unit of the smaller version of the multimedia stacker rack, the bottom plan of the larger version and an assemblage being identical;  
 FIG. 5 is a rear plan view of a single unit of the smaller version of the multimedia stacker rack;  
 FIG. 6 is a front perspective view of a single unit of the smaller version of the multimedia stacker rack;  
 FIG. 7 is a rear perspective view of a single unit of the smaller version of the multimedia stacker rack;  
 FIG. 8 is a front plan view of a single unit of the larger version of the multimedia stacker rack;  
 FIG. 9 is a side plan view of a single unit of the larger version of the multimedia stacker rack as seen from the right-hand side, the view from the left-hand side being an identical mirror image;  
 FIG. 10 is a rear plan view of a single unit of the larger version of the multimedia stacker rack;  
 FIG. 11 is a front perspective view of a single unit of the larger version of the multimedia stacker rack; and,  
 FIG. 12 is a rear perspective view of a single unit of the larger version of the multimedia stacker rack.
