(54) Title: SYSTEM, APPARATUS AND METHOD FOR CUSTOMER REQUISITION AND RETENTION VIA REAL-TIME INFORMATION

FIG. 1

(57) Abstract: A hand-held computing device and system comprising a method for providing the user the ability to allocate geographical regions to a predetermined or on-the-fly representative or groups of representatives. A field representative is provided with the means to view an allocation of customer's addresses that are part of scheduled daily activity. The system provides user ability to access a particular property, display information at the point-of-sale, capture information including digital signatures and verbal verifications, and storing the outcome of the interaction in a particular case. A user interface on a hand-held computer device is provided that includes a group management module, a user allocation module, a team leader module, a customer interaction module, and a mapping module. A further user interface is provided at one or more web consoles. Said web console user interface includes a form builder module, a form management module, a reporting module, and an allocation module.

A. CLASSIFICATION OF SUBJECT MATTER

G06Q 30/02 (2012.01) G06Q 10/06 (2012.01)

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

GOOGLE, PATENT LENS; (door-to-door, sales, geographic, assign, authorise, etc..)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
	Documents are listed in the continuation of Box C	

Further documents are listed in the continuation of Box C See patent family annex

* Special categories of cited documents:		
"A" document defining the general state of the art which is not considered to be of particular relevance	"T"	later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E" earlier application or patent but published on or after the international filing date	"X"	document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y"	document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O" document referring to an oral disclosure, use, exhibition or other means	"&"	document member of the same patent family
"P" document published prior to the international filing date but later than the priority date claimed
