The image contains a page of a document related to a patent application. The page includes details such as the International Publication Number (WO 2013/093692 A3), International Classification (G06F 19/00), International Filing Date (27 June 2013), and other relevant information.

The text on the page is a continuation of a clinical decision support system that predicts physiologic and clinical status changes. It describes a system that monitors one or more patients, using a plurality of monitoring rules based on patient data availability and/or patient context. The system is designed to alert when a patient is deteriorating, based on the selected monitoring rules for the patient. The patent includes claims and descriptions related to the monitoring and alerting processes.

The abstract mentions that a clinical decision support system monitors one or more patients, selecting monitoring rules based on patient data. The system generates alerts in response to deteriorating patient status.
Declarations under Rule 4.17:

— as to applicant's entitlement to apply for and be granted a patent (Rule 4.17(H))
— as to the applicant's entitlement to claim the priority of the earlier application (Rule 4.17(H))

Published:

— with international search report (Art. 21(3))

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"Z" document member of the same patent family
