(54) Title: COMPUTER APPLICATION PROMOTION

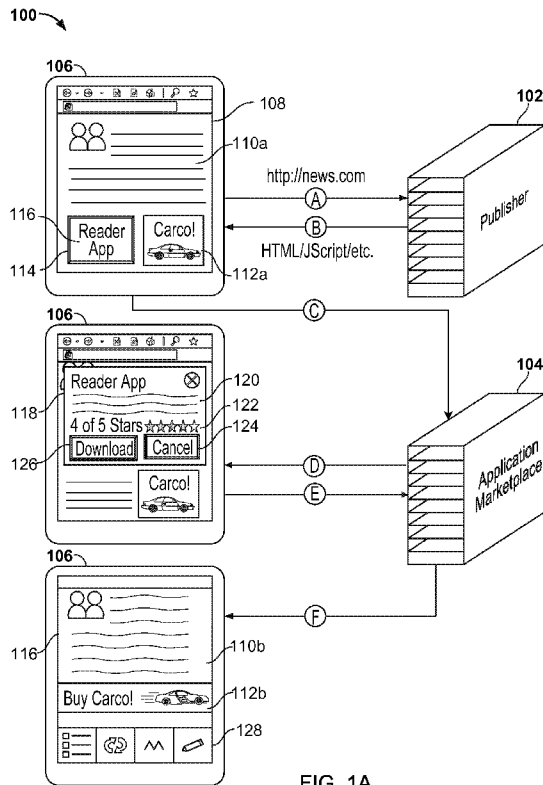

FIG. 1A

(57) Abstract: A computer-implemented process includes providing a request to access content associated with a website; receiving web page information associated with the website, and data for displaying a notification that indicates availability of a native computer application that is associated with the website; providing a request to access information associated with the native computer application; receiving information associated with the native computer application that describes interactions between a plurality of users of an application marketplace and a component of the application marketplace that provides and receives information related to the native computer application; and displaying the descriptive information for viewing by a user, including displaying information that indicates the interactions between the plurality of users and the component of the application marketplace.

<b>INTERNATIONAL SEARCH REPORT</b>		International application No. PCT/US13/74406		
<b>A. CLASSIFICATION OF SUBJECT MATTER</b> IPC: <b>G06F 7/00( 2006.01),17/30( 2006.01),15/16( 2006.01)</b>  USPC: <b>707/705;709/201</b> According to International Patent Classification (IPC) or to both national classification and IPC				
<b>B. FIELDS SEARCHED</b>				
Minimum documentation searched (classification system followed by classification symbols) U.S. : 707/705; 709/201				
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched				
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)				
<b>C. DOCUMENTS CONSIDERED TO BE RELEVANT</b>				
Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.		
X	US 2012/0072312 A1 (Lange et al.) 22 March 2012, see entire document.	6, 8, 20		
Y	US 2012/0124028 A1 (Tullis et al.) 17 May 2012, see entire document.	9-15		
X	US 2011/0208801 A1 (Thorkelsson et al.) 25 August 2011, see entire document.	1-5, 16-19		
---		-----		
Y		6-15, 20		
Y	US 2012/0284256 A1 (08 November 2012) see entire document.	7		
<input type="checkbox"/> Further documents are listed in the continuation of Box C. <input type="checkbox"/> See patent family annex.				
* Special categories of cited documents: <table style="width: 100%; border: none;"> <tr> <td style="width: 50%; border: none;">               "A" document defining the general state of the art which is not considered to be of particular relevance                "E" earlier application or patent published on or after the international filing date                "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)                "O" document referring to an oral disclosure, use, exhibition or other means                "P" document published prior to the international filing date but later than the priority date claimed             </td> <td style="width: 50%; border: none;">               "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention                "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone                "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art                "&amp;" document member of the same patent family             </td> </tr> </table>			"A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family
"A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family
