CLAIM

The ornamental design for a device for preparation of
gelatin-based products, as shown and described.

DESCRIPTION

FIG. 1 is a front-right perspective view of a design for a
device for preparation of gelatin-based products with a top
front access panel in a closed position.

FIG. 2 is a front view of the device for preparation of
gelatin-based products of FIG. 1.

FIG. 3 is a back view of the device for preparation of
gelatin-based products of FIG. 1.

FIG. 4 is a left side view of the device for preparation of
gelatin-based products of FIG. 1.

FIG. 5 is a right side view of the device for preparation of
gelatin-based products of FIG. 1.

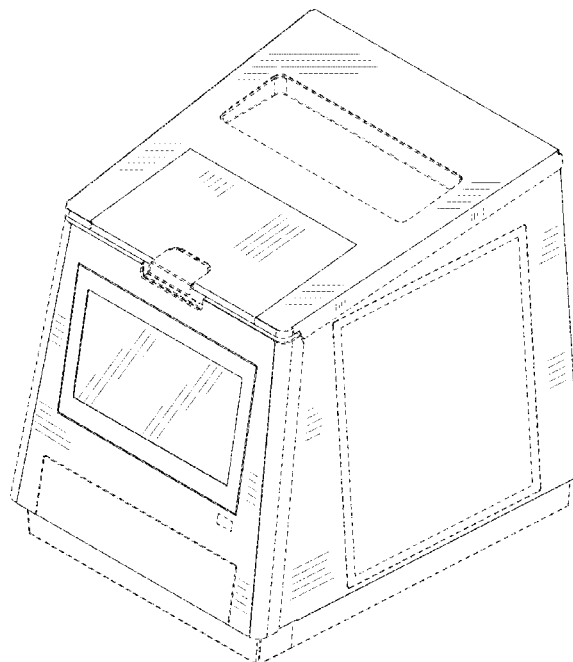

FIG. 6 is a top view of the device for preparation of
gelatin-based products of FIG. 1.

FIG. 7 is a bottom view of the device for preparation of
gelatin-based products of FIG. 1; and,

FIG. 8 is a front-right perspective view of the device for
preparation of gelatin-based products of FIG. 1 with the top
front access panel in an open position.

The solid lines in FIGS. 1–8 illustrate a device for prepara-
tion of gelatin-based products according to the present
invention. The broken lines form no part of the claimed
design.
