Our Disappearance magic system will enable any person to disappear in front of other people eyes.

“Abstract of the description”

DISAPPEARANCE MAGIC SYSTEM

Our Disappearance magic system will enable any person to disappear in front of other people eyes.

Description

DISAPPEARANCE MAGIC SYSTEM

Through the whole history it was magic for a person to disappear but with the new technology Not anymore.

Our magic system will enable any person to disappear in front of other people eyes.

It consists of two devices on one belt to be worn by a person, one device on the front side of the person and the second on the back Side of the person, the one on the back side has a camera captures the back view and send the rear image continuously to the front device through the belt, the front device will be a hologram projector or another device to produce two dimensions image of the rear view to be in front of the person so the person will be hidden behind the Image that the device producing and the observer will not notice the person existence because He see the view behind the person as normal as the person is not there.

The two dimensions image will be produced as curve shape to hide the person not only from The front but also from the sides.

This system can be turned on when needed by pressing one button on the belt.

This system can be used for military purposes.

The Second way off getting hidden consists of suit covers all the body with the head ,on this suit there are two cameras one on the front side and the second on the back side, this suit will be made of special material to work as screen where the front camera will send the front view continuously to the back side of the Suit and the rear camera will send the rear view continuously to the front side of the suit so The person who wear the suit will be invisible from all sides where the observer from all sides Will see only the image of the back view which is behind the person who wears the suit.

This system can be turned on when needed by pressing one button on the suit.

This system can be used for military purposes.

The third way of getting hidden consists of curved screen as a shield with cameras on both top rear ends of it, and any person behind this screen will be invisible from front and the sides where The cameras will capture the rear and side views and send it continuously to the screen where the observer will see on the screen only the back and side images of the view which is behind the screen as nobody is there.

This system can be turned on when needed by pressing one button on the screen.

This system can be used for military purposes.

The forth way of getting hidden consists of camera on the back of the person hold with belt and light curved screen as a shield to hide behind it where the rear cameras will capture the rear View and send it continuously to the screen by wire from the belt or wirelessly where the observer will see only the image of the back view which is behind the screen as nobody is there.

This system can be turned on when needed by pressing one button on the belt.

This system can be used for military purposes.

"The embodiments of the invention in which an exclusive property or privilege is claimed are defined as follows:"

DISAPPEARANCE MAGIC SYSTEM

CLAIM 1

Our magic system will enable any person to disappear in front of other people eyes.

It consists of two devices on one belt to be worn by a person, one device on the front side of the person and the second on the back Side of the person, the one on the back side has a camera captures the back view and send the rear view continuously to the front device through the belt, the front device will be a hologram projector or another device to produce two dimensions image of the rear view to be in front of the person so the person will be hidden behind the Image that the device producing and the observer will not notice the person existence because He see the image of the view behind the person as normal as the person is not there.

The two dimensions image will be produced as curve shape to hide the person not only from The front but also from the sides.

This system can be turned on when needed by pressing one button on the belt.

This system can be used for military purposes.

CLAIM 2

Our magic system will enable any person to disappear and become invisible.

it consists of suit covers all the body with the head ,on this suit there are two cameras one on the front side and the second on the back side, this suit will be made of special material to work as screen where the front camera will send the front view continuously to the back side of the Suit and the rear camera will send the rear view continuously to the front side of the suit so The person who wear the suit will be invisible from all sides where the observer from all sides Will see only the image of the back view which is behind the person who wears the suit.

This system can be turned on when needed by pressing one button on the suit.

This system can be used for military purposes.

CLAIM 3

Our magic system will enable any person to disappear and become invisible.

It consists of curved screen as a shield with cameras on both top rear ends of it, and any person behind this screen will be invisible from front and the sides where The cameras will capture the rear and side views and send it continuously to the screen where the observer will see on the screen only the back and side images of the view which is behind the screen as nobody is there.

This system can be turned on when needed by pressing one button on the screen.

This system can be used for military purposes.

CLAIM 4

Our magic system will enable any person to disappear and become invisible.

It consists of camera on the back of the person hold with belt and light curved screen as a shield to hide behind it where the rear cameras will capture the rear View and send it continuously to the screen by wire from the belt or wirelessly where the observer will see only the image of the back view which is behind the screen as nobody is there.

This system can be turned on when needed by pressing one button on the belt.

This system can be used for military purposes.
