CLAIM

The ornamental design for telephone instrument set, as shown and described.

DESCRIPTION

FIG. 1 is a front, top and right side perspective view of a telephone instrument set showing our new design with a removable handset in cradled position and the stand's antenna raised;

FIG. 2 is a left side elevational view thereof;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a left side elevational view of the handset shown independently for clarity of illustration; and

FIG. 6 is a front, top and right side perspective view of the stand, and a right side, top and front perspective view of the handset inverted, with the stand and handset shown thus in bracketed relationship separately for additional clarity of representation.
