CLAIM

The ornamental design for a perimeter skirting for elevated structures, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of my new design for vented perimeter skirting for elevated structures, with the particular interlock at each end of the skirting panel shown in dotted lines to illustrate the environment of use;

FIG. 2 is a front elevation thereof;

FIG. 3 is a top plan view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a left side elevational view thereof;

FIG. 8 is a front elevational view of a second embodiment of my new design for vented perimeter skirting for elevated structures, with the interlock structure being shown in dotted lines to show the environment of use;

FIG. 9 is a top plan view thereof;

FIG. 10 is a right side elevational view thereof;

FIG. 11 is a rear elevational view thereof;

FIG. 12 is a bottom plan view thereof;

FIG. 13 is a left side elevational view thereof;

FIG. 14 is a front elevational view of a third embodiment of my new design for vented perimeter skirting for elevated structures, with the interlock being shown in dotted lines to show the environment of use;

FIG. 15 is a top plan view thereof;

FIG. 16 is a right side elevational view thereof;

FIG. 17 is a rear elevational view thereof;

FIG. 18 is a bottom plan view thereof;

FIG. 19 is a left side elevational view thereof;

FIG. 20 is a front elevational view of a fourth embodiment of my new design for vented perimeter skirting for elevated structures, with the interlock being shown in dotted lines to show the environment of use;

FIG. 21 is a top plan view thereof;

FIG. 22 is a right side elevational view thereof;

FIG. 23 is a rear elevational view thereof;

FIG. 24 is a bottom plan view thereof; and,

FIG. 25 is a left side elevational view thereof.
