ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

WO 2007/025239 A3

(54) Title: LAYERED WOOD COMPOSITES

(57) Abstract: A method for the preparation of a composite product, as well as the composite product. The composite product comprises at least two layers. At least one of the layers is of wood or another cellulose-containing material. The process comprises differentially treating the layers prior to, during, or after the lamination of the layers into a composite product.

INTERNATIONAL SEARCH REPORT

International application No
PCT/US2006/033449

A. CLASSIFICATION OF SUBJECT MATTER
INV. B32B21/13 B32B21/14 A01N43/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
B32B AOIN

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal , WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No

Further documents are listed in the continuation of Box C

See patent family annex

* Special categories of cited documents

¹A- document defining the general state of the art which is not considered to be of particular relevance

¹E- earlier document but published on or after the international filing date

¹L- document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

¹O- document referring to an oral disclosure use, exhibition or other means

¹P- document published prior to the international filing date but later than the priority date claimed

¹T- later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X¹" document of particular relevance the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
