DESIGN

W. DUNN
GOLF BALL.

Patented July 27, 1897.
UNITED STATES PATENT OFFICE.

WILLIE DUNN, OF DOBBS FERRY, NEW YORK.

DESIGN FOR A GOLF-BALL.

SPECIFICATION forming part of Design No. 27,441, dated July 27, 1897.
Application filed May 13, 1897. Serial No. 630,800. Term of patent 7 years.

To all whom it may concern:

Be it known that I, WILLIE DUNN, a subject of the Queen of Great Britain, and a resident of Dobbs Ferry, in the county of Westchester and State of New York, have invented a Design for a Ball, more especially of a Golf-Ball, of which the following is a specification.

This invention relates to a design for a ball, more especially a golf-ball.

In the accompanying drawings, forming part of this specification, Figure 1 is a side elevation of a ball to which my design has been applied, and Fig. 2 is an end elevation of such ball; and I do hereby declare that the said drawings convey to any one a clear understanding of the invention and are sufficient to enable any person to use the same.

The characteristic features of my design are the several series of circumferential spaced lines and quadrant-like spaces between the said series of lines and star-like ornaments occupying said quadrant-like spaces. At the intersection of the circumferential lines I have shown in the drawings circular spaces for words, names, or legends, but I do not regard this as an essential feature of my design.

What I claim as new, and desire to secure by Letters Patent, is—

The design for a ball, substantially as represented in the drawings and herein described.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

WILLIE DUNN.

Witnesses:

PETER BLAIR,
EDWIN SEGER.
