(57) **CLAIM**

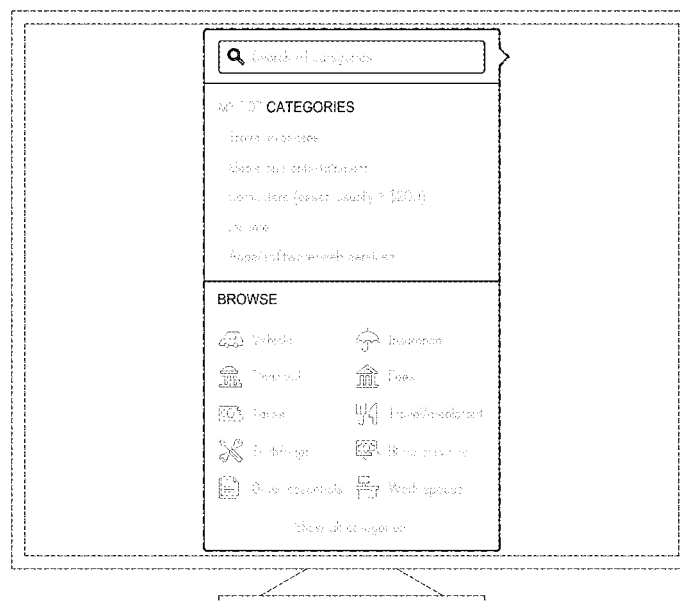

The ornamental design for a display device with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display device with a graphical user interface.

The dot dashed line shows that the border of the box is the boundary of the claimed design. The dot dashed line does not exist on the graphical user interface and does not form part of the claimed design. The outermost broken lines showing an electronic device illustrate environmental subject matter, whereas the remaining broken lines showing a display device and elements of the graphical user interface illustrate portions of the article. None of the broken line subject matters form part of the claimed design.
