SUPPLEMENTARY EUROPEAN SEARCH REPORT

Application number:
EP 15 89 73 48

LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claim:

A composition for use in the treatment of a person or animal having a neurodegenerative disease or condition, depression, a stress disorder, and/or anxiety disorder, wherein the composition comprises benztropine

2. claim:

A composition for use in the treatment of a person or animal having a neurodegenerative disease or condition, depression, a stress disorder, and/or anxiety disorder, wherein the composition comprises clonidine

3. claim:

A composition for use in the treatment of a person or animal having a neurodegenerative disease or condition, depression, a stress disorder, and/or anxiety disorder, wherein the composition comprises pimozone

4. claim:

A composition for use in the treatment of a person or animal having a neurodegenerative disease or condition, depression, a stress disorder, and/or anxiety disorder, wherein the composition comprises thioridazine

5. claim:

A composition for use in the treatment of a person or animal having a neurodegenerative disease or condition, depression, a stress disorder, and/or anxiety disorder, wherein the composition comprises trifluoperazine

6. claim:

A composition for use in the treatment of a person or animal having a neurodegenerative disease or condition, depression, a stress disorder, and/or anxiety disorder, wherein the composition comprises triflupromazine

7. claim: 13

An in vitro method for screening for a compound or drug that inhibits FKBP51 protein

None of the further search fees have been paid within the fixed time limit. The present (supplementary) European search report has been drawn up for those parts of the European patent application which relate to the first mentioned in the claims, namely claims: 1-12, 14, 15(all partially)

The supplementary search report has been based on the last set of claims valid and available at the start of the search.
