(54) Title: CONTENT MANAGEMENT SYSTEM EMPLOYING A HYBRID WEB APPLICATION FRAMEWORK

FIG. 4

(57) Abstract: A method may include receiving, via a network, a request for browser-renderable content, and determining, by a processor of a computing device, a web framework, where the web framework includes at least one ASP.NET™ control and at least one ASP.NET™ MVC controller. The method may include determining, by the processor, first instructions, where the first instructions correspond to the at least one ASP.NET™ control, and the first instructions include a browser-renderable language. The method may include determining, by the processor, second instructions, where the second instructions correspond to the at least one ASP.NET™ MVC controller, and the second instructions include the browser-renderable language. The method may include combining, by the processor, the first instructions and the second instructions to determine the browser-renderable content, and providing, via the network, the browser-renderable content.

A. CLASSIFICATION OF SUBJECT MATTER		
G06F 9/45 (2006.01)		
According to International Patent Classification (IPC) or to both national classification and IPC		
B. FIELDS SEARCHED		
Minimum documentation searched (classification system followed by classification symbols)		
G06F 9/00-9/45, 13/00-13/42, 17/00-17/30		
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched		
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)		
PatSearch (RUPTO internal), Esp@cenet, PAJ, USPTO, Information Retrieval System of FIPS		
C. DOCUMENTS CONSIDERED TO BE RELEVANT		
Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

* Special categories of cited documents:		
"A"	document defining the general state of the art which is not considered to be of particular relevance	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E"	earlier document but published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L"	document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O"	document referring to an oral disclosure, use, exhibition or other means	"&" document member of the same patent family
"P"	document published prior to the international filing date but later than the priority date claimed
