(54) Title: A SEALING MEMBER

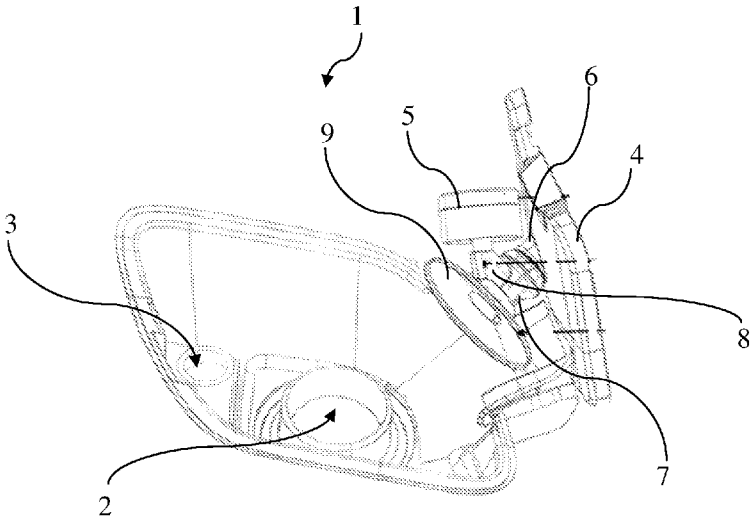

FIGURE 1

(57) Abstract: The present invention relates to a sealing member (1), which is integrated onto the fuel tank filling chamber, essentially characterized by at least one fuel filling chamber (2), at least one fluid filling chamber (3), at least one fuel filling cap (4) which covers the top of the fuel filling chamber (2) and the fluid filling chamber (3) upon moving around a hinge, at least one fluid filling cap (5) which covers the opening of the fluid filling chamber (3) thereby serving as a plug, at least one cap locating area (6) which is placed on the fuel filling cap (4), at least one locating member (7) which is placed on the cap locating area (6), at least one cap holder (8) which is positioned on the locating member (7) and on which the fluid filling cap (5) can be placed optionally, and at least one chamber sealing cap (9) which is positioned on the locating member (7) and covers the fuel filling chamber (2).

A. CLASSIFICATION OF SUBJECT MATTER

B60K 15/05 (2006.01)i; B60K 15/04 (2006.01)i

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

B60K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPODOC, WPI, EPOQUE, Espacenet, TURKPATENT

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
