(54) Title: EMERGENCY AND SECURITY CONDITION RETRACTABLE COMPUTER ARRANGEMENTS

(57) Abstract: A computer arrangement (10) for inducing a retraction of a computer component in response to a sensed emergency or security condition. The computer arrangement (10) can include an enclosure (42) with an open inner volume and a support member (24) extendably and retractably retained relative to the enclosure (42). A computer component, such as a monitor (12), a keyboard (14), or a laptop computer (52), can be retained relative to the support member (24). One or more sensors (15) can sense an emergency or security condition thereby to induce a retraction of the support member (24) and, possibly, a closing of a lid (36). The keyboard (14) or laptop computer (52) can be retained relative to a support unit (16, 50) or cradle (50), which can be manually or automatically pivotable between a storage configuration and a second configuration.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US05/44707

A. CLASSIFICATION OF SUBJECT MATTER
 IPC: **G06F 1/16(2006.01)**

USPC: 361/683
 According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
 U.S. : 361/683

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

| Category * | Citation of document, with indication, where appropriate, of the relevant passages | Relevant to claim No. |
|------------|------------------------------------------------------------------------------------|-----------------------|
| X | US 5666265 (Lutz et al) 9 September 1997 (09.09.1997), column 09, lines 8-35 | 1-26 |
| A | US 6414842 (Cipolla et al) 02 July 2002 (02.07.2002), column 4, lines 8-47 | 1-26 |

Further documents are listed in the continuation of Box C. See patent family annex.

| * Special categories of cited documents: | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| "A" document defining the general state of the art which is not considered to be of particular relevance | "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention |
| "E" earlier application or patent published on or after the international filing date | "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone |
| "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) | "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art |
| "O" document referring to an oral disclosure, use, exhibition or other means | "&" document member of the same patent family |
| "P" document published prior to the international filing date but later than the priority date claimed | |
