SUPPLEMENTARY EUROPEAN SEARCH REPORT

Application number:
EP 18 85 94 09

LACK OF UNITIY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. claims: 1-10
A storage enclosure comprising a composite material which comprises a fibre-containing layer and a mineral containing layer.

2. claims: 11-13
A method of making a container from a composite packaging structure comprising a fibre-containing layer and a polymer container layer.

3. claims: 14, 15
A storage box enclosure comprising a composite material and a transparent plastic sheet material.

None of the further search fees have been paid within the fixed time limit. The present (supplementary) European search report has been drawn up for those parts of the European patent application which relate to the first mentioned in the claims, namely claims: 1-10

The supplementary search report has been based on the last set of claims valid and available at the start of the search.
