(54) **Bag with ballistic protection**

(57) The present disclosure relates to a bag with ballistic protection. One particular aspect of this disclosure is that the protection bag can be provided with an inserted flexible, ballistic protection mat and flexible shock damping material and/or ballistic insert plates. The ballistic protection is personally portable in the form of a bag and therefore always within range. The bag has various applications: individual ballistic protection, ballistic protected transport and storage of explosives, possibility for protection of a larger area by combination of more bags in open form, side and seat protection in means of transport and transport of wounded personnel.
