(54) Title: A SYSTEM AND A METHOD FOR DETERMINING PRIORITY OF VISUALS

100

FIG. 2

(57) Abstract: The present invention relates to a system (100) for determining priority of visuals (220) and a method thereof. The system (100) comprises a plurality of visual capturing components (10) for capturing visuals (220); an event detecting component (50) for detecting events in the visuals (220) associated with each of the visual capturing component (10) and a visual priority determining component (110) for determining the priority of the visuals (220) of the visual capturing component (10) based on a set of parameters.

A. CLASSIFICATION OF SUBJECT MATTER
INV. G08B13/196
ADD.
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED
Minimum documentation searched (classification system followed by classification symbols)
G08B

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

* Special categories of cited documents :

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed

- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family
