UNITED STATES PATENT OFFICE.

DANIEL HOGAN, OF NEW YORK, N. Y., AND CHRISTIAN WILLIAM MEINECKE, OF JERSEY CITY, NEW JERSEY, ASSIGNORS TO THE MEINECKE & COMPANY, OF NEW YORK, N. Y.

DESIGN FOR AN AIR-CUSHION.

SPECIFICATION forming part of Design No. 33,543, dated November 13, 1900.

Application filed October 3, 1900. Serial No. 31,938. Term of patent 14 years.

To all whom it may concern:

Be it known that we, DANIEL HOGAN, residing in Manhattan borough, in the city, county, and State of New York, and CHRISTIAN WILLIAM MEINECKE, residing at Jersey City, in the county of Hudson and State of New Jersey, citizens of the United States, have invented and produced a new and original Design for Air-Cushions, of which the following is a specification.

This design consists in an air cushion or seat having a body part with convex outline and shanks, an end opening or narrow passage being extended between the shanks to a center opening in the body.

The design is illustrated in the annexed drawings, in which—

Figure 1 is a front elevation of the cushion sectioned along x x, Fig. 3. Fig. 3 is a transverse section along y y, Fig. 2.

The body of the cushion is shown at 1 with a convex or curved outline 2. The shanks 3 join or run to the body on a concave edge or reverse curve 4. The end opening or passage 5 between the shanks extends to a wider central opening or hole 6 in the body.

The design gives a striking and characteristic appearance.

What we claim as new, and desire to secure by Letters Patent, is—

The design for an air-cushion as herein shown and described.

In testimony whereof we have hereunto set our hands in the presence of two subscribing witnesses.

DANIEL HOGAN.

CHRISTIAN WILLIAM MEINECKE.
