UNITED STATES PATENT OFFICE.

GEORGE C. SIEBERT, OF BRIDGEPORT, CONNECTICUT, ASSIGNOR TO
ANDREW KROUSE, OF SAME PLACE.

DESIGN FOR A VASE.

SPECIFICATION forming part of Design No. 23,214, dated April 24, 1894.

Application filed March 14, 1894. Serial No. 503,642. Term of patent $3\frac{1}{4}$ years.

To all whom it may concern:

Be it known that I, GEORGE C. SIEBERT, a citizen of the United States, residing at Bridgeport, in the county of Fairfield and State of Connecticut, have invented and produced a new and original Design for Vases; and I do hereby declare the following to be a full, clear, and exact description of the invention, such as will enable others skilled in the art to which it appertains to make and use the same.

In the drawings—Figure 1 is a side elevation showing the obverse side of my design; Fig. 2 a similar view showing the reverse side of my design, and Fig. 3, a plan view.

Similar numbers of reference denote like parts in all the figures of the drawings.

The leading features of my design consist in the body of the vase shaped to represent a trumpet shell; the representations of a guitar and a mandolin resting against said shell on

opposite sides of the obverse portion; the representation of a banjo resting against said shell on the reverse side thereof; and the arched base which supports the representations of the trumpet shell, the guitar, the mandolin and the banjo.

1 is the body of the vase shaped to represent a trumpet shell, 2 the representation of the guitar, 3 the representation of the mandolin, 4 the representation of the banjo, and 5 the arched base.

I claim—

The design for a vase, substantially as shown in the accompanying drawings.

In testimony whereof I affix my signature in presence of two witnesses.

GEORGE C. SIEBERT.

Witnesses:

F. W. SMITH, Jr.,
M. T. LONGDEN.
