UNITED STATES PATENT OFFICE.

LOUIS SANDERS, OF BROOKLYN, NEW YORK.

DESIGN FOR A BELT.

SPECIFICATION forming part of Design No. 19,380, dated October 15, 1899.
Application filed September 11, 1899. Serial No. 333,659. Term of patent 3½ years.

To all whom it may concern:

Be it known that I, LOUIS SANDERS, of Brooklyn, in the county of Kings and State of New York, have invented and produced a new and original Design for Belts, of which the following is a specification, reference being had to the accompanying drawing, forming a part thereof.

The figure of the drawing is a perspective view of my design.

The design consists of a bodice-like figure AA', a band-like figure B, extending from the outer edges of the bodice figure, cord-like figures C, interposed between the inner edges of the bodice figure AA', a bow figure D at the bottom of the cord-like figures, and a tongue figure E to the rear of the cord-like figure, constituting a background therefor. At the meeting lines of the bodice figure A A' and the band figure tab-like figures F appear, and a loop-like figure H is represented as encompassing each tab-like figure.

I claim—
A design for a belt, substantially as herein shown and described.

LOUIS SANDERS.
