(54) Title: METHODS AND SYSTEMS OF DETERMINING AND SELLING REMOTELY VIEWED WAGERING GAME OUTCOMES

(57) Abstract: In accordance with some embodiments, a plurality of outcomes are generated and used to create a video presentation of representative outcomes. The video presentation is recorded onto a tangible medium (e.g., DVD or CD-ROM) or otherwise provided to a player (e.g., a player may access the video presentation online). This allows a player to purchase a video presentation of (e.g., predetermined) outcomes in a jurisdiction in which gambling is legal yet view the presentation at the player's convenience (e.g., from any jurisdiction and at any time). A player who purchases such a video presentation may subsequently redeem it for a redemption value associated therewith. In some embodiments, a payout of the session may be determined based on a payout parameter indicated by a game card provided to the player.

☐ Further documents are listed in the continuation of Box C.

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
