(54) Title: SYSTEM AND METHOD FOR DYNAMICALLY PROVIDING A NEWS FEED ABOUT A USER OF A SOCIAL NETWORK

(57) Abstract: A method for displaying a news feed in a social network environment is described. The method includes generating news items regarding activities associated with a user of a social network environment and attaching an international link (406) associated with at least one of the activities, to at least one of the news items as well as limiting access to the news items to a predetermined set of viewers and assigning an order to the news items (402). The method may further include displaying the news items (402) in the assigned order to at least one viewing user of the predetermined set of viewers and dynamically limiting the number of displayed news items (402).

* Special categories of cited documents:		
"A"	document defining the general state of the art which is not considered to be of particular relevance	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E"	earlier application or patent published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L"	document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O"	document referring to an oral disclosure, use, exhibition or other means	"&" document member of the same patent family
"P"	document published prior to the international filing date but later than the priority date claimed
