Title: SYSTEM AND METHOD FOR ANALYZING INTELLIGENCE INFORMATION

Abstract: According to one embodiment of the disclosure, a method for information analysis comprises receiving a message in a database. The method further comprises identifying at least one of a person, place, or object within the received message. The method comprises obtaining information stored in one or more databases regarding the identified at least one person, place, or object. Finally, the method comprises displaying at least a portion of the information and the message for analysis.

### INTERNATIONAL SEARCH REPORT

#### A. CLASSIFICATION OF SUBJECT MATTER
- **IPC(8):** G06F 7/00 (2009.01)
- **USPC:** 707/1

According to International Patent Classification (IPC) or to both national classification and IPC

#### B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
- **USPC:** 707/1

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
- **UPSC:** 707/1, 2 (text search)

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
- **PubWest (PGPB, USPT, EPAB, JPAB), Google,**
- Search terms used: extract, name, person, place, location, object, information, message, intelligence, analyze, analysis, map, crossreference, area, cross, reference, metacarlia, thingfinder, picture, department, defense, identify

#### C. DOCUMENTS CONSIDERED TO BE RELEVANT

* Special categories of cited documents:
  - "A:" document defining the general state of the art which is not considered to be of particular relevance
  - "E:" earlier application or patent but published on or after the international filing date
  - "L:" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  - "O:" document referring to an oral disclosure, use, exhibition or other means
  - "P:" document published prior to the international filing date but later than the priority date claimed
  - "T:" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
  - "X:" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
  - "Y:" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
  - "&:" document member of the same patent family

**Date of the actual completion of the international search**
- 27 August 2009 (27.08.2009)

**Date of mailing of the international search report**
- 04 SEP 2009
