(57) **CLAIM**

The ornamental design for a display screen for a communications terminal with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen for a communications terminal with graphical user interface. The dashed broken line in the FIGURE illustrates a display screen of a communications terminal. The finely-dotted broken line showing of all the words illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
