- (57) Abstract: A brake assembly for inline skates having a boot portion (10) with right and left downwardly directed frame members (12, 13). The frame members (12, 13) support at least three axles. Right and left carrier plates (25, 28) are positioned along an inner face of the downwardly directed frame members (12, 13). At least two diabolos (31, 32) are supported by the right and left carrier plates (25, 28). The diabolos (31, 32) each contact two wheels (18, 19, 20, 21) and are forced outwardly to provide a friction rubbing action against the carrier plates (25, 28) when the carrier plates (25, 28) have moved from a disengaged position to an engaged position.

INTERNATIONAL SEARCH REPORT

International application No.

☐ Further documents are listed in the continuation of Box C. ☐ See patent family annex.		
* Special categories of cited documents:		
"A"	document defining the general state of the art which is not considered to be of particular relevance	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E"	earlier application or patent published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L"	document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O"	document referring to an oral disclosure, use, exhibition or other means	"&" document member of the same patent family
"P"	document published prior to the international filing date but later than the priority date claimed
