To all whom it may concern:

Be it known that I, Otto Eugene Huber, a citizen of the United States of America, residing at Reading, Pennsylvania, in the county of Berks and State of Pennsylvania, have invented a new, original, and ornamental Design for an Elastic Fabric, of which the following is a specification, reference being had to the accompanying drawings, forming part thereof.

Figure 1 is a front view of an elastic fabric embodying my ornamental design, to which no tension is applied;

Fig. 2 is a view of the elastic fabric depicted in Fig. 1, as it appears when subjected to approximately one hundred per cent stretch longitudinally of the fabric; and

Fig. 3 is a view of the fabric of Fig. 1, as it appears when subjected to approximately fifty per cent stretch transversely of the fabric.

The figures disclose the elastic fabric enlarged to approximately one and one half times normal size, so that they will appear approximately full size when reduction of the same to the ultimate size as appearing in the patent copy.

The reverse side of the fabric has substantially the same appearance as the front side shown in the several figures.

I claim:

The ornamental design for an elastic fabric, as shown and described.

OTTO EUGENE HUBER.
