(54) Title: SYSTEM AND METHOD FOR SHARING INFORMATION OVER A WIRELESS NETWORK

(57) Abstract: A system and method is provided for providing wireless electronic content to members of the public. A mobile backbone of an electronic content delivery system is based on mobile vehicles (120), as of the Postal Service. Alternatively a stationary network to deliver electronic content is established in Postal Service facilities (101). A device, such as a Family Message Board, receives delivery of the wireless electronic content, whether from a mobile vehicle or a fixed postal station (115). The wireless electronic content may be processed for a variety of uses including email, internet access, graphic messages, and postal secure notifications.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US02/17669

A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : H04M 3/42

US CL : 455/414, 466

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

U.S. : 455/414, 466, 426

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

BRS

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X,E	US 6,411,891 B1 (JONES) 25 June 2002, col 2 lines 7-62, col 10 line 22-col 12 line 39	1-21

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents:	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"A" document defining the general state of the art which is not considered to be of particular relevance	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"E" earlier document published on or after the international filing date	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"&" document member of the same patent family
"O" document referring to an oral disclosure, use, exhibition or other means	
"P" document published prior to the international filing date but later than the priority date claimed
