Title: INTEGRATED GAMING CAPABILITY IN VEHICLE ENTERTAINMENT SYSTEMS

Abstract: A vehicle entertainment system is provided, the system including a housing, a video module at least partially contained within the housing and configured to selectively provide video content, a game module at least partially contained within the housing and configured to selectively provide game content, a content selector configured to receive content from the video module and the game module and to selectively pass such content under user direction, and a presentation module in operative communication with the content selector to receive content passed by the content selector and to present the passed content to the user.
INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER
   IPC: A63F 9/24 (2006.01)

   USPC: 463/1,30
   According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

   Minimum documentation searched (classification system followed by classification symbols)
   U.S.: 463/1,30

   Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

   Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
   USPAT, US-PGPUB, EPO, JPO, --VEHICLE CAR AUTO AUTOMOBILE DVD GAME PASSENGER

☐ Further documents are listed in the continuation of Box C. ☐ See patent family annex.

* Special categories of cited documents:
   "A" document defining the general state of the art which is not considered to be of particular relevance
   "E" earlier application or patent published on or after the international filing date
   "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
   "O" document referring to an oral disclosure, use, exhibition or other means
   "P" document published prior to the international filing date but later than the priority date claimed
   "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
   "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
   "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
   "&" document member of the same patent family
