**Title:** CONFIGURABLE MOUNT FOR A PERIPHERAL DEVICE

**Abstract:** Mounting system for mounting an adjustable arm for a peripheral device. The system includes a set of components which may be configured to create a clamp mount, a wall mount, a reverse wall mount, or table or flat mount, a panel mount and a slat mount. The components include a shaft holder (20) for receiving the shaft of the arm apparatus and a pair of L-shaped brackets (400, 414). One of the brackets (414) includes at least one extending pin (426, 480) which is received within opening(s) (410, 482) within the flange (402) of the other bracket (400) when assembling the components.
For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER
IPC(7) : A47F 5/00
US CL. : 248/228.5, 230.5, 231.61, 540, 316.6
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED
Minimum documentation searched (classification system followed by classification symbols)
U.S. : 248/228.5, 230.5, 231.61, 540, 316.6

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

☐ Further documents are listed in the continuation of Box C. ☐ See patent family annex.

* Special categories of cited documents:
*A* document defining the general state of the art which is not considered to be of particular relevance
*E* earlier document published on or after the international filing date
*L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
*O* document referring to an oral disclosure, use, exhibition or other means
*P* document published prior to the international filing date but later than the priority date claimed
*T* later document published after the international filing date or priority date and not in conflict with the application but could to understand the principle or theory underlying the invention
*X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
*Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
*A* document member of the same patent family
