(51) International Patent Classification ⁷ : A63H	A2	(11) International Publication Number: WO 00/13760 (43) International Publication Date: 16 March 2000 (16.03.00)
(21) International Application Number: PCT/KR99/00501 (22) International Filing Date: 1 September 1999 (01.09.99) (30) Priority Data: 1998/16562 U 2 September 1998 (02.09.98) KR 1999/18347 U 31 August 1999 (31.08.99) KR (71)(72) Applicant and Inventor: KIM, Sang-Yong [KR/KR]; 275-2 A-Hyun-3 dong, Mapo-gu, Seoul 121-013 (KR).		(81) Designated States: AU, CA, CN, JP, US. Published <i>Without international search report and to be republished upon receipt of that report.</i>
(54) Title: MAGIC HEALTH BEAD HOOLA-HOOP (57) Abstract <p>The present invention "Magic Health Hoola Hoop" is related to the hoola hoop. The ordinary hoola hoop provides just the fun. However, the present invention persues for the hoola hoops with the different purposes. The present invention contains the beads which is made of many different elements, such as the jade, Bio-ceramic, etc. The beads can move freely in every direction, and produce the light pressure round the waist for the finger pressure therapy. For the structure feature, the invention can be divided into several parts to provide the convenient use.</p> <div style="text-align: center;">  </div>

MAGIC HEALTH BEAD HOOLA-HOOP**Technical Field**

This invention is related to the hoola hoops

5 Background Art

The hoola hoops are known as the equipments to provide the exercise as well as the fun

Disclosure of invention

10 To make improvement over the ordinary hoola hoops, the present invention is pursuing for providing the health , the fun, and the convenient use at the same time.

The present invention is composed of the so called "Magic Health Bead".

15 These beads are located in the middle of the hoola hoop, and produce the light pressure around the waist in order to provide the finger-pressure therapy. Each bead has the different colors for the visual fun. In addition, for the convenient use, this hoop can be divided into several parts and put together everywhere.

20 The "Magic Health Bead" is made of the Bio-ceramic, jade and many other elements. It is designed to tolerate the high-impact and the wear-off. The beads are secured in the middle of the hoops and pop out innerside and outterside of the surface of the hoops. with the strong bead holding secure cap, the beads move(circle) in every direction.

25 Also the weight of the present invention can be easily controlled by the magic beads. Taking out the beads from the hoops reduces the total weight of the hoops and adding the beads makes the heavier hoops. Therefore, this present invention can be used without the barrier of the age, and sex

30 Since the hoops has the variety of colors, it will easily abstract the interests and the fun. Each bead has the different colors to be attractive.

In pursuit of the convenient carry, the hoops is designed to be divided into
35 more than two main parts and can be put together with ease. The place is not matters of the use of this invention

Brief Description of The Drawing

The nature and mode of operation of preferred embodiments of the present invention will now be more fully described in the following detailed description, taken with the accompanying drawings wherein:

5

Figure 1A is the overview picture the present invention. It shows the different beads and the main body of the hoola-hoop. Figure 1B and Figure 1C is the cross-section view of the "magic health bead" and the main body of the hoola-hoop.

10 Best Mode for Carrying Out Invention

The present invention has the beads which are located in the middle of it. The beads move and circle freely in every direction. The purposes of the presence of beads are to provide the finger pressure therapy as well as the visual fun.

15

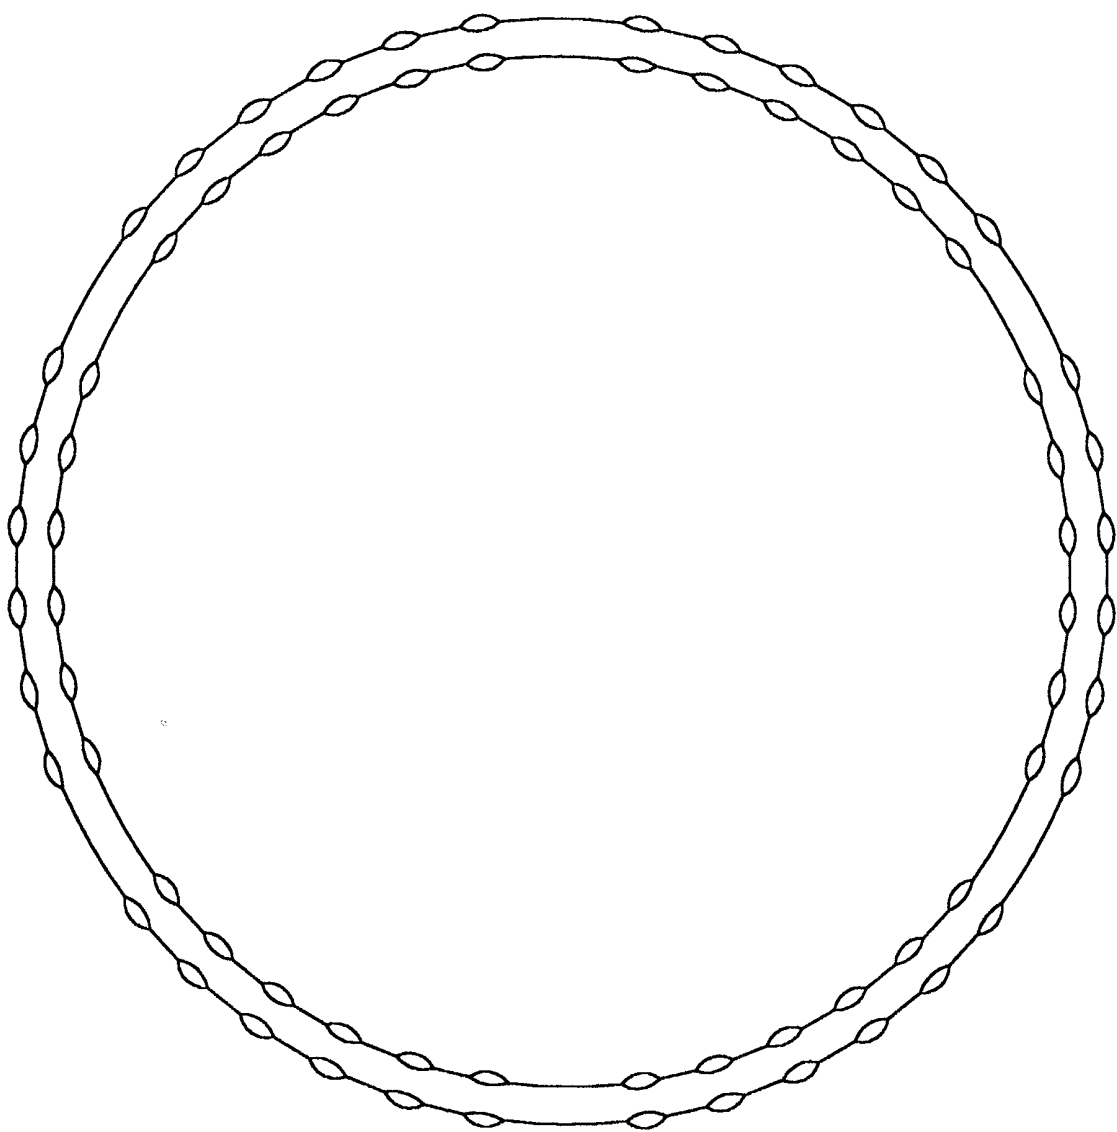

The advanced structure feature is that the invention can be divided into separate parts and put together without difficulty. It allows to carry the invention everywhere

WHAT IS CLAIMED IS :

1. The "Magic Health Hoola Hoop" has the unique beads. The beads are located in the middle of the hoop, and pop out from the outterside and innerside surface of the hoop. The beads move(circle) in every direction. Therefore, they provide the effective exercise as well as the finger pressure therapy.
2. The "Magic Health Hoola Hoop" can be divides into several parts with ease in order to provide the convenience for production, distribution, and of the course, the use. The beads are made of the Bio-ceramic, jade, plastic and many other elements which are not harmful but good for the human body.
