An ornamental design for a head-mounted display for virtual-reality systems or the like, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of our new design of a head-mounted display for virtual-reality systems or the like.

FIG. 2 is a front view of the design of FIG. 1, showing the surface that faces away from the user's face.

FIGS. 3 and 5 are perspective views of the design of FIG. 1.

FIGS. 4 and 6 are side views of the design of FIG. 1.

FIG. 7 is a back view of the design of FIG. 1, showing the surface that rests against the user's face.

FIG. 8 is a front view approaching a top view of the design of FIG. 1.

FIG. 9 is a front view approaching a bottom view of the design of FIG. 1.

FIG. 10 is a bottom view of the design of FIG. 1, showing the surface that rests below the user's eyes and against the user's nose; and,

FIG. 11 is a bottom view approaching a back view of the design of FIG. 1.
