MILTON F. WILLIAMS, OF ST. LOUIS, MISSOURI, ASSIGNOR TO WILLIAMS PATENT CRUSHER & PULVERIZER COMPANY, OF ST. LOUIS, MISSOURI, A CORPORATION OF MISSOURI.

DESIGN FOR A BEATER-HEAD FOR CRUSHERS AND PULVERIZERS.

SPECIFICATION forming part of Design No. 83,311, dated October 22, 1901.
Application filed August 19, 1901. Serial No. 71,354. Term of patent 14 years.

To all whom it may concern:

Be it known that I, MILTON F. WILLIAMS, a citizen of the United States, residing at the city of St. Louis, State of Missouri, have invented a certain new and original Design for a Beater-Head for Crushers and Pulverizers, of which the following is a full, clear, and exact description, such as will enable others skilled in the art to which it appertains to make and use the same, reference being had to the accompanying drawings, forming part of this specification, in which—

Figure 1 is a side elevational view of my new and original design for beater-heads. Fig. 2 is a top plan view of the same, and Fig. 3 is a bottom plan view.

This invention relates to a new and original design for beater-heads for crushers and pulverizers; and it consists in the shape and configuration thereof, all as will hereinafter be more fully described.

In the drawings I have shown a beater-head whose body portion is rectangular in shape, the upper face thereof having an elongated opening, while across the lower face is arranged a projecting rib, extending diagonally.

The design consists, essentially, of the rectangular body portion having an elongated opening in one face and a diagonal rib or projection across its opposite face.

What I claim is—

The design for a beater-head for crushers and pulverizers substantially as herein shown and described.

In testimony whereof I hereunto affix my signature, in the presence of two witnesses, this 9th day of August, 1901.

MILTON F. WILLIAMS.

Witnesses:
GEORGE BAKEWELL,
GALES P. MOORE.
