(57) **CLAIM**

The ornamental design for a device for applying stimulation to the foot or feet of a person, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view looking downwardly from the right side of the device for applying stimulation to the foot or feet of a person which embodies our invention; FIG. 2 is a right side elevational view thereof, the left side elevational view being a mirror image thereof; FIG. 3 is an elevational view from the back thereof; FIG. 4 is a plan view of the top thereof; and, FIG. 5 is a plan view of the bottom thereof. The rectangular and circular portions of the device shown in broken lines in FIG. 5 forms no part of the claimed design.
