(54) **Title:** VISUAL GESTURES

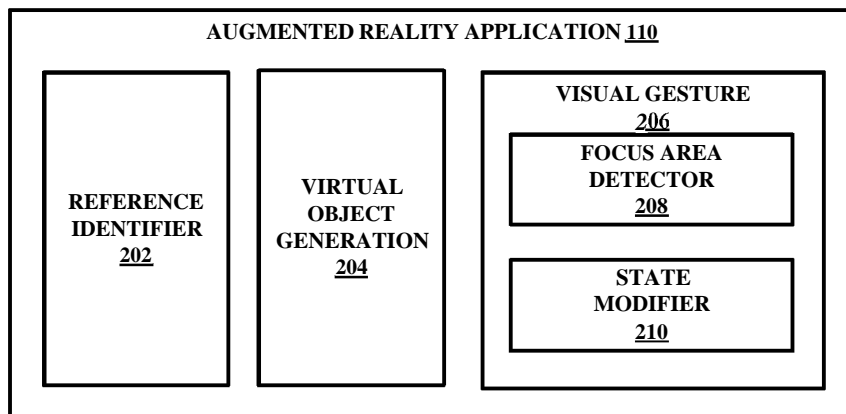

FIG. 2

(57) **Abstract:** Visual gestures in a device allow a user to select and activate features in a display of the device. A visual reference on a physical object is identified. A visualization of a virtual object engaged with an image of the physical object is generated in a display of a device. The virtual object corresponds to the visual reference. A rendering of the visualization of the virtual object is based on a position of the display relative to the visual reference. A focus area in the display and a feature of the object are determined. A state of the feature is changed when the feature is in the focus area of the display.

INTERNATIONAL SEARCH REPORT

International application No.
PCT/US2014/024796**A. CLASSIFICATION OF SUBJECT MATTER****G06F 3/01(2006.01)i**

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

G06F 3/01; G06F 3/048; G06Q 10/00; H04N 9/76

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean utility models and applications for utility models

Japanese utility models and applications for utility models

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

eKOMPASS(KIPO internal) & Keywords: virtual object, real, visual reference, focus, change and similar terms.

I Further documents are listed in the continuation of Box C. See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family
