(54) Abstract Title: **An eyewash container with a tab pull seal**

(57) An eyewash container 1, comprises an oval lip opening 2, which can hold liquid when sealed with a tab pull 4 seal 3. The opening 2 may be large enough to cover a human eye, and the container 1 may be made from a clear plastic so that debris can be seen in the liquid after use.

GB 2 389 314 A

1/1

EYEWASH

The invention relates to eyewash that has a small amount of liquid sealed in it.

Eyewash comes as a bottle of liquid and a separate eye bath or as a plastic bottle that you have to open by snapping the neck of the bottle and then pour the liquid into the eye.

An object of this invention is to provide a sealed eye wash unit, which can be opened and used with ease.

Preferably the eye wash unit is made of plastic, ideally a clear plastic so that any debris can be seen in the liquid after use.

A preferred embodiment of the invention will now be described with reference to the accompanying drawing in which:

FIGURE 1, Shows the eye wash unit.

As show in figure 1 the eye wash unit comprises of container 1, oval lip opening 2, which can be sealed 3. Which can be opened with tab pull 4.

CLAIMS

1, An eyewash unit includes a container that has a oval lip opening, which can hold liquid when sealed with a tab pull seal.

2, An eyewash substantially as herein described and illustrated in the accompanying drawings.
