[57] **CLAIM**

The ornamental design for a housing for a portable cellular handset telephone or similar article, as shown and described.

DESCRIPTION

FIG. **1** is a front, top and right side perspective view showing our new design for a housing for a portable cellular handset telephone or similar article;

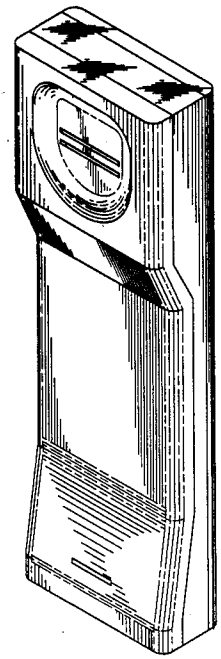

FIG. **2** is a rear elevational view thereof;

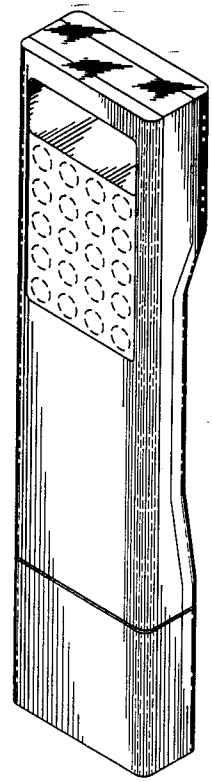

FIG. **3** is a left side elevational view thereof;

FIG. **4** is a bottom plan view thereof;

FIG. **5** is a rear, top and left side perspective view, the right side being a mirror image, of a second embodiment of the same inventive concept disclosed in full lines in FIGS. **1–4.** The sole difference between the embodiments being the addition of a battery pack or similar article integrally mounted to and below the bottom of the housing of the handset telephone, it being understood that a perspective view taken 180° from FIG. **5** would be the same as shown in FIG. **1,** except for the battery pack.

The showing of a broken line keyboard area in FIGS. **2** and **5** is for illustrative purposes only and forms no part of the claimed design.
