Letters Patent Design NO 161 dated 4th December 1847.

The schedule referred to in these Letters Patent and making part of the same.

————— To all whom it may concern
Be it known that we, J. F. Goodhue, and Charles Guild, of the City
of Cincinnati, in the State of Ohio have invented and produced a
new and useful design for the ornamenting the side plates of a

Stone, and we do hereby declare that the following is a full and exact description thereof.

The accompanying drawing, shows the ornaments on our stone plate, the centre panel representing the battle of Monterey. This panel is surrounded by a border A.A. on the upper part of which there is the American Eagle; on the two sides the inscription "Buena Vista" and "Monterey;" and on the lower portion the inscription of "Jack Taylor". This border is surrounded by the enriched ogee moulding B.B.; and this again by the ornamented border C.C. along the upper edge of the plate is the cornice moulding D.D. with ornamental leafing as represented.

What we claim as constituting our ornamental design, and which we desire to secure by letters patent, are the respective ornaments, and enrichments herein described, and represented in the accompanying drawing.
