(54) Title: A REUSABLE ASSEMBLY FOR CONTAINING, DISTRIBUTING AND CONSUMING MINERAL WATER

(57) Abstract: The present invention is directed to a reusable assembly for containing, distributing and consuming mineral water comprised of a container (1) having a handle (2), recesses and projections (3-4) to be piled among several units, which are combined by other means in the form of coupling and locking holes (5a) for bolts (5b) provided on the upper face of a support base (6); wherein the bottom of said container is cut out to provide a large opening (7), however, a portion (8) of said bottom is kept in order to contour said opening (7), in such a way that a vane-like inner part (9) can be placed on said part (8), a plastic bag (10) is placed upon the former and provided with a cylindrical nozzle (11) that can be fit from inside into an opening (12) provided in the lower portion of the front wall of the container (1), wherein said nozzle (11), besides being attached through a nut (13) has inside same a plug (14) tightly fit from inside, acting jointly with a tap (15) provided with the respective actuating knob (16).

## \* Special categories of cited documents:

- \*A\* document defining the general state of the art which is not considered to be of particular relevance
- \*E\* earlier document but published on or after the international filing date
- \*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- \*O\* document referring to an oral disclosure, use, exhibition or other means
- \*P\* document published prior to the international filing date but later than the priority date claimed

- \*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- \*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- \*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- \*Z\* document member of the same patent family
