(54) Shower enclosure fittings

(57) A system of shower enclosure fittings is disclosed for attaching a panel (106) of a shower enclosure or a shower curtain support, such as a pole, to a wall. The system of shower enclosure fittings comprises a wall profile (114) for attachment to a wall and a shower enclosure profile (100) for attachment to the wall profile and to either a panel of a shower enclosure or a shower curtain support. The shower enclosure profile (100) comprises an elongate member (102) of one-piece construction with a hollow portion (104) therein. The hollow portion has a holder (116) for holding a personal hygiene product for use by a person when showering. The holder is located at least partially inside the hollow portion of the profile between an upper end of the profile and a lower end of the profile, and such that the personal hygiene product held by the holder is accessible to the person inside the shower enclosure, when the profile is installed in the shower enclosure, attaching the panel of the shower enclosure or the shower curtain support to the wall.
