(57) **CLAIM**

We claim the ornamental design for a display screen with transitional graphical user interface for a content digest, as shown and described.

**DESCRIPTION**

FIG. 1 is a first image in a sequence for a display screen with transitional graphical user interface for a content digest showing our new design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof;

FIG. 4 is a fourth image thereof; and,

FIG. 5 is a fifth image thereof.

The broken lines shown in FIGS. 1-5 represent portions of the display screen with transitional graphical user interface for a content digest that form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-5.

The process or period in which one image transitions to another image forms no part of the claimed design.
