CLAIM

We claim the ornamental design for a touch safe fuse module holder, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a touch safe fuse module holder in accordance with one embodiment of the present invention that is mounted to a rail and oriented to receive a touch safe fuse module.

FIG. 2 is a perspective view similar to FIG. 1 but showing the touch safe fuse module holder connected to a touch safe fuse module.

FIG. 3 is a side view of the touch safe fuse module holder shown in FIG. 1.

FIG. 4 is a front view of the touch safe fuse module holder shown in FIG. 1.

FIG. 5 is a rear view of the touch safe fuse module holder shown in FIG. 1.

FIG. 6 is a top view of the touch safe fuse module holder shown in FIG. 1; and,

FIG. 7 is a bottom view of the touch safe fuse module holder shown in FIG. 1.

The broken-line disclosure of the fuse module and rail in the views is for illustrative purposes only and forms no part of the claimed design.
