(54) Method for displacing a modular shop rack

(57) In the method for displacing a modular shop rack, the modules of which comprise standards (1) having shelves (4) mounted thereon, which standards (1) are each provided with a foot (2) supported by little legs (6), a carrier element (9) is applied alternately underneath the different modules so that its both extremities

(10) extend underneath the feet (2) of the standards (1) which are situated on both sides on the respective module, said carrier element (9) and the modules supported thereby are jacked up, and a little cart (12) is placed underneath each of the jacked up carrier elements (9) so that the shop rack can be displaced without having necessarily to be emptied.
