THE HENRY PETERS CO., PUBLISHERS, PHILADELPHIA, 1896.
UNITED STATES PATENT OFFICE.

PATRICK II. PENDERGAST, OF SYRACUSE, NEW YORK.

DESIGN FOR A BIDET AND FOOT-BATH.

SPECIFICATION forming part of Design No. 26,118, dated September 29, 1896.

Application filed August 14, 1896. Serial No. 602,816. Term of patent 14 years.

To all whom it may concern:

Be it known that I, PATRICK II. PENDERGAST, a citizen of the United States, residing at Syracuse, in the county of Onondaga and State of New York, have invented and produced a new and original Design for a Combined Bidet and Foot-Bath, of which the following is a specification, reference being had to the accompanying drawings, which show,

Figure 1, a plan perspective of the design complete. Fig. 2 is a top plan thereof; Fig. 3, a cross-section thereof, and Fig. 4 a longitudinal section thereof.

The leading features of my design consist in the combination of a bidet with a foot-bath in front thereof, all being substantially of the shape shown in the drawings.

A is a bidet comprising vertical side walls 2, front wall 3, and rear wall 4.

B is a foot-bath having vertical side walls 25 in extension of the side walls of the bidet, the front wall of said bidet constituting the rear wall of the foot-bath and having a front wall 8.

The side and front walls of the foot-bath 30 are surmounted by the rounded rim 9, sloping, substantially as shown, in continuation of the slope of the upper side walls of the bidet.

The corners of the bidet and foot-bath and 35 their rims are rounded, substantially as shown, both interiorly and exteriorly.

What I claim is—

The design for a combined bidet and foot-bath, substantially as shown and described.

In witness whereof I have hereunto set my hand this 4th day of August, 1896.

PATRICK II. PENDERGAST.

In presence of—

C. W. SMITH,

CHARLES W. MARVIN.
